

A mother's voice about her student at Immanuel...

Received During the School Year, 2014/15

"I usually give in to the Valentine chocolate to counteract the crabbiness! :) Glad you found a different way! You are doing amazing things with the kids. Both academic and plain 'ol life. It's truly awesome!"

When the class was working on letter writing, my daughter had written to her dance teacher of 4 years. She brought the letter home and I mailed it out. The teacher emailed me. She said, "I am crying here! Can't believe this letter I received from your daughter."

Her teacher had breast cancer and was one year cancer-free the day she received her letter. She had been feeling apprehensive and very emotional about the anniversary, but the letter supported her and made her realize that so many people, including God, were walking this road with her.

My daughter wrote, 'I am so glad you survived. Remember that God is always with you.' (Next sentence 'Who do you want to win the SuperBowl?' lol!) Immanuel has truly blessed our family. When I see God working through our daughter, first hand, in a way that seems to come so natural, I am reminded that God is good. It's just unbelievable to think I had so much apprehension about moving her to a new school setting.

*Now she is right where God wants her to be.
Take care -*
